

YOUR ABSTRACTS ARE STILL WELCOME!

A lot of demonstrators have already reached us.

However, to extend the exhibition we would like to invite you kindly to send us your abstract on a smart textile prototype or demonstrator.

We are especially looking for demonstrators that give warmth or sound, or that can sense.

Application areas of high interest are protective clothing, textiles for transport, medical textiles and sports & wellness clothing.

Please send your abstract until **30th June 2009** to **Judith.Kenis@ugent.be**

See you in Ghent!

The logo for the Smart Textiles Salon is located at the bottom of the page. It features the text "SMART TEXTILES SALON" in a bold, sans-serif font. "SMART" and "SALON" are in white, while "TEXTILES" is in red. The text is overlaid on a dark, textured background that resembles a microscopic view of a material's structure.
